Mortagne-sur-Sèvre, France, 30 September 2019, COGELEC (ISIN: FR0013335742/ticker: COGEC), the French leader in access control systems for building complexes, has today announced the signature of a technological and commercial partnership agreement with Legrand.

COGELEC has signed a partnership agreement with Legrand in order to incorporate products in the Hexact range in its BTicino brand, dedicated to access control and intercom systems, with in particular the Vigik® access control solution.

COGELEC and Legrand have jointly carried out the technological developments necessary to incorporate Hexact products in Legrand's BTicino range and proposed a communication interface, enabling the real-time management of resident badges, access and names via the Hexact® Web platform.

This new offering is marketed by the Legrand sales forces across France among distribution customers, installers as well as business providers in the building complex sector.

COGELEC already has a share of more than 40% of the Vigik® access control market. This new offering will further strengthen its positions in the French market.

This agreement will enable us to further extend our footprint in France, thanks to a solution already endorsed in the access control systems for building complexes sector."*
