Good activity growth over the full year: +19.1%

Cogelec’s fourth-quarter 2019 revenue totalled €12.0m, up 17.5% compared to the fourth quarter of 2018.

Over the full year, Cogelec posted a 19.1% increase in revenue to €40.0m.

Revenue in France increased by 17.4% to €36.4m vs. €31.0m, driven mainly by sales of Intratone. Revenue from international activities reached €3.5m compared to €2.5m the previous year, an increase of 39.2% thanks to a ramp-up of sales activity in Europe.

Subscriptions showed continued strong growth (+22.6%) to €9.8m over full-year 2019, and now account for 25% of revenue.

Growth expected in 2020
In 2020, Cogelec is set to see further growth in sales of Intratone in France and Europe, in particular with the marketing of innovative products such as the button operated intercom, interactive digital display board and connected mailbox labelling. The popularity and initial sales of the Kibolt universal key in France since the beginning of the year confirm our ambitions in this disruptive technology.
